

Theory of Change

We envision a Romanian society in which everyone is accepted, benefitting from equal opportunities, and being empowered to reach their full potential as well as contribute to their community.

Fostering an encouraging and empowering environment for development and growth for the youth of the Szekler community.

Social inclusion of previously marginalized members of the community.

Heightened interaction with peers in team-based physical activities.

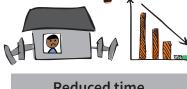

Promotion of self-development, strengthening of cultural identity and enrichment of educational opportunities.

course offerings, children for children tutoring

Improved acceptance and awareness and granting of equal opportunities within diverse groups of different backgrounds.

awareness training, children for children tutoring

Reduced time children spend neglected at home.

Development of skills and improved quality of received education.

Increased access to sports.

to sports.

basketball practises / -camps / -tournaments / -games

Elevation of awareness of diversity within the community.

Szekler youth engage with our project.

to education.

course offerings / basketball / coaches education
